Summary

Computer Science student pursuing a Bachelor's degree with hands-on experience developing web applications through a software development internship and personal projects. Experienced in React.js, Angular, TypeScript, JavaScript, and responsive UI development. Skilled in building reusable components, integrating RESTful APIs, implementing authentication, and working with backend technologies including Node.js, Express.js, and PostgreSQL. Eager to contribute to real-world frontend projects and grow as a software developer.

EXPERIENCE & PROJECTS

Software Developer (Intern), *Myanmar Information Technology* 12/2023 – 02/2024
Student Entry Form: **Angular | Node.js | PostgreSQL** Mandalay

- Developed a full-stack Student Management System with Angular, Node.js, and PostgreSQL for managing student records and exam results
- Designed database schema and REST APIs for system communication
- Built registration and exam modules with validation and auto grading
- Created responsive UI with Angular Reactive Forms and Bootstrap

Enterprise Company Management System | *React* | *Node.js* | *Express* | *PostgreSQL* | *JWT* | *Swagger*

- Built a full-stack web app to manage companies, users, and administrative roles.
- Designed PostgreSQL database tables and relationships for storing company and user data.
- Developed REST APIs with Node.js and Express for authentication and user management.
- Implemented JWT authentication and role-based access control for different user roles.
- Built responsive dashboards and management pages using React.
- Documented and tested API endpoints using Swagger.

Nola Note App – **Personal Project | React | Node.js | MongoDB | Tailwind**

- Built a full-stack note-taking application for creating, editing, and deleting notes
- Designed MongoDB schemas for storing user notes and related data
- Developed RESTful APIs for frontend–backend integration
- Implemented form validation to ensure accurate user input
- Designed a responsive UI using Tailwind CSS for mobile and desktop devices

EDUCATION

Bachelor of Science in Computer Science, *University of the People* 08/2024 – Present
Expected Graduation: April 2027

Associate of Science in Computer Science, *University of the People* 08/2024 – 03/2026
Graduated: March 2026

Mandalay Software Institute (School of Computer Programming) 02/2023 – 12/2023
• Trained in Angular, Node.js, PostgreSQL, MySQL, MongoDB, Flutter, and REST APIs. Mandalay
• Built web and mobile applications and practiced database design, debugging, and responsive UI development.

SKILLS

Languages
- JavaScript
- TypeScript
- HTML5
- CSS3
- SQL

Backend & APIs
• Node.js
• Express.js
• REST API Development
• API Integration
• JSON
• Sequelize ORM

Cloud & DevOps
AWS

Frontend
• Angular
• React
• Bootstrap
• Tailwind CSS

Databases
• PostgreSQL
• MongoDB
• MySQL

Tools & Version Controls
• Git
• GitHub
• Postman
• VS Code
• pgAdmin

CERTIFICATES

Software Engineering Training
Mandalay Software Institute (School of Programming)
Covered Angular, Node.js, PostgreSQL, MySQL, MongoDB, Flutter, RESTful APIs, and responsive UI design.

AWS AI Practitioner Challenge
AWS Scholar Program (Udacity & Accenture)
Completed: May 20, 2026

Responsive Web Design
FreeCodeCamp

AWS EC2 and Solutions Architect – Associate training
Udemy

LANGUAGES
